REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

United States Patent Nos. 4,168,936, 4,865,333 and 5,727,792 were each cited in a corresponding PCT application as "X" references with respect to claim 1, similar to pending claim 11. Claim 11 is a method claim which is not anticipated by each of the cited references since none of the references recite pumping a fluid containing a (meth)acrylic monomer. Functional language in a method claim is material to the invention, unlike apparatus claims. Further, it is deemed nonobvious by the examiner to use any of the cited pumps with a (meth)acrylic monomer in the pumped fluid while also filling the claimed separator compartment with a barrier medium differing from the pumped fluid since none of the cited references suggest such a claimed process.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
